

## **Resume**

**Name :- Soumyajit Das [ সৌম্যজিৎ দাস ]**  
**Internet identity is known as Pardesi Cat**  
**Website: <https://pardesicat.xyz>**  
**Mail: [contact@pardesicat.xyz](mailto:contact@pardesicat.xyz)**

**Country: India, West Bengal**  
**Known Language: Bengali , Hindi, English**

### **Objective :**

I'm a simple self learning Person with a strong interest in cybersecurity, and wanna be part of The Indian Army. I'm Hard-working, energetic, personable, and technical-minded individual. Always ready to explore new technology, especially open source projects . I have experience in team work with international teams/groups with various random projects. Looking for projects error fixing them all by myself (in this way i gathered many self experience without doing any paid courses)

- Strong experience with Linux administrative and distro, like installing 1-4 different os in same machine and running linux vps from home, linux basis to advance terminal to root folder experience,
- Experience with running hosting linux server from home and other services like google cloud, Microsoft Azure etc.
- Experience with databases services like Mysql , MariaDb , Mongodb.
- Ofc Experience with Cybersecurity digital forensics and penetration testing. Tools distros like Black arch, Kali linux , Parrot sec Linux, tools like Nmap , burpsuit , dns scanner tools , ddos/ ddos scanner with server load tester etc
- A little bit of experience in HTML,CSS , Bootstrap , Bash script (self learn) ofc wordpress include
- Experience with micro devices like Rasberry pi. (i own raspberry pi 4 8gb ram model) using home hosting services
- Linux administration skills including managing servers and deploying virtual machines using proxmox. & deploying Docker images wither pull method or Docker composed method
- Network administration skills like Cloudflare, dns point, firewall perms modify , C server protection with load servers like reverse proxy like Nginx reverse proxy and Caddy
- Experience with handling large number of running service or fixing errors example large Minecraft (public games server networks ) random host for multiple service host in same vps /vps.

→ Experience with office works like writing blogs . making office works like presentation making, form making, usual normal office work experience (doing my father all office works ) using LibreOffice, OnlyOffice MS office etc.

**Special Note :**

Experience like ,

**Learning Linux & experimenting with the servers, raspberry pi. Bash scripting. , cyber security testing, Penetration Testing & Deploying web services &, deploy docker containers & self hosting applications like**

**Open source projects Nextcloud owncloud searxng whoogle portianer promox etc**

**I did by my choice and self-learning without help from any couuses and any institution degree**

**Beside that i also have other passion like DRAWING using water colour, pastel colour, oil painting Still light painting, complete courses in painting (have junior artist certification from govt ) .**
