Pardesi Cat Aka Soumyajit Das

Website :   https://pardesicat.xyz

Objective

Passionate about cybersecurity and aspiring to serve in the Indian Army. A self-motivated individual with strong problem-solving skills and keen attention to detail. Eager to explore cutting-edge technologies, particularly within the open-source community. Gained practical experience through hands-on projects and collaboration with global teams. Proficient in Linux administration, database management, and cybersecurity practices such as digital forensics and penetration testing. Skilled at managing multiple services simultaneously. Possess a solid foundation in modern day tools and technologies, A.I. tools, and well-prepared to excel in challenging environments.

Skills

- • Git (And related all stuffs)
- • Bash Scripting …
- • Python (Learning…)   [Playing with Anaconda / conda]
- • Web Development: HTML, CSS, Bootstrap, Tailwind, Flowbite
- • Database: MySQL, PostgreSQL, MongoDB
- • Cloud services: Google, Azure, Oracle (Virtual or Baremetal) Any types
- • Container / Virtualization: Docker, Proxmox, Vagrant (with automation) & various
- • Networking   [Basic Understanding...] [Example Dns servers..]
- • Cybersecurity: Pentesting, Threat Hunting, Digital Forensics, Zero Trust
- • Office tools: MS Office, LibreOffice
- • Artificial Intelligence tools [Advance Level plays]

Experience

Hands-on experience through real-time practice and self-initiated projects, including setting up a personal homelab, deploying real-world projects on cloud platforms, and contributing to open-source projects. And working with Teams around globe..

Additional Notes

Learning Linux & experimenting with servers, Raspberry Pi, Bash scripting, cybersecurity testing, penetration testing, deploying web services, Docker containers, self-hosting applications. Contributed to FOSS projects as a Bengali translator, issue reporter, and analyst. All self-learned without institutional education. Also passionate about photography and painting (certified junior artist).

And I don't stick to any particular service or tools .. rather I try to understand the concept [trying to figure out how that technology working whats logic its using]

Interests

Cybersecurity [Pentest , Threat Hunting],   &   Sysadmin
